Rieke Packaging Systems™

A TriMas Company

Rieke Packaging Systems is a global leader in the design and manufacture of dispensing equipment and container closures. With operations in Europe, the Americas and Asia, Rieke Packaging Systems distributes products to customers in over 65 countries.

Rieke Packaging Systems, Englass and Rieke Dispensing have an ever-evolving range with a variety of pump designs offering doses from 0.1ml to 300ml. Our customers range from multi-national organisations to small-to-medium sized companies and serve a diverse range of markets from personal care, pharmaceutical, food & beverage through to janitorial, household and industrial chemicals.

We are able to help our customers find the perfect solution to their individual dispensing and packaging requests. Whatever your requirements, if not already available, a solution can be designed, developed and manufactured to meet your specific needs.

Whatever the product - paste, ointment, lotion, cream or gel - we have a pump design to dispense it accurately and effectively - put us to the test.
